SUMMARY

I am a junior software engineer and recent graduate of DigitalCrafts' Full Stack Software Development Bootcamp based in Atlanta, with full stack project experience and two years of professional web design experience.

PROJECTS

Capstone: *Highway to Harmony*

Inspired by the classic Oregon Trail game, create a band in this musical spin-off game and ride the Highway to Harmony all the way to a final battle of the bands. *Full stack CRUD app using Node.js, React.js, Express.js, PostgreSQL, JWT, Bootstrap, Tailwind, CSS and HTML.*

Personal Music Catalog: *SoundVault*

Like Goodreads for music, register an account and save your favorite music to your profile page. Remember all the albums you've listened to and show them off to friends. *Full stack CRUD app using Node.js, Express.js, PostgreSQL, JavaScript, JWT, EJS Templating, Bootstrap, CSS, and HTML.*

Music Game App: *Tune Tycoon*

Like the classic higher or lower game, choose which of the two songs is more popular! Our data, including popularity ratings, are taken from the Genius music api and rendered to the DOM. *Technologies used: JavaScript, Bootstrap, HTML, CSS.*

TECHNICAL SKILLS

Git, Github, HTML/CSS, Bootstrap, Tailwind CSS, full-stack JavaScript including Express.js, React.js, Node.js, PostgreSQL, Sequelize.

PROFESSIONAL EXPERIENCE

Glenn Memorial United Methodist Church, Emory University, Atlanta, GA

Director of Communications, Digital & Print Media, October 2021 - Current

- Design and maintain our website using Squarespace
- Develop and design consistent branding using photography, video, and social media
- Utilize technologies including Adobe Creative Cloud Suite, Squarespace, Canva, Mailchimp, and equipment including cameras and mics
